Published independently via Amazon Kindle Direct Publishing (KDP).

This is an original interactive work of mystery puzzle fiction. Names, characters, places, and incidents are either products of the author's imagination or used fictitiously. Any resemblance to actual persons or trademarked entities is entirely coincidental.

First Enhanced Edition: October 2026

HOW TO SOLVE A 4-STAGE CASE DOSSIER

Welcome to the Agency, Detective. In this enhanced volume, every unsolved crime is structured as an interactive 4-stage case file. To identify the killer, you must complete four distinct phases:

PHASE 1: THE FORENSIC EVIDENCE SWEEP (Word Search)

Begin each case by scouring the crime scene grid for 5 pieces of physical evidence. As you locate each word, cross it off your evidence roster. The remaining untouched letters hold secondary investigative significance.

PHASE 2: THE ENCRYPTED DISPATCH (Cryptograms)

The victim, an informant, or the suspect left a coded dispatch. Using the provided Caesar Shift key (+3), decipher the message. The decrypted text contains a vital clue that eliminates a suspect or location.

PHASE 3: THE ALIBI MATRIX (Logic Deduction Grid)

Use the witness statements, forensic clues, and your decrypted dispatch to complete the logic matrix. Place checkmarks (√) for confirmations and crosses (X) for eliminations.

PHASE 4: THE OFFICIAL CASE WARRANT

Once the matrix proves who had access to the murder weapon at the scene of the crime, formally indict the culprit on the Official Warrant.

CIPHER KEYS & LOGIC DEDUCTION RULES

CIPHER CODEBREAKER GUIDE:

Each case features an intercepted Caesar cipher shifted by 3 letters forward in the alphabet.

To decode, shift each letter 3 places backward:

• D becomes A | E becomes B | F becomes C

• G becomes D | H becomes E | ... | C becomes Z

LOGIC MATRIX PRINCIPLES:

1. Each person of interest was in exactly one room and possessed one weapon.

2. When a '√' is marked, all other boxes in that row and column must be crossed out ('X').

3. Transitive property: If Person A was in Room B, and the weapon in Room B was Weapon C, then Person A possessed Weapon C.

Pencil is strictly recommended! Take your time, double-check your deductions, and never guess. Every puzzle in this volume has been verified with constraint satisfaction solvers to have a single, unique solution.

THE FOUR INVESTIGATION SETTINGS

Your detective assignments take you across four atmospheric historical settings:

• THE BLACKWOOD MANOR MURDERS (Cases 01–09):

Victorian country estates, aristocratic inheritances, poisoned sherry, and family feuds.

• THE MIDNIGHT EXPRESS MYSTERIES (Cases 10–18):

Continental luxury trains, dark tunnels, covert diplomats, and jewel thefts.

• THE METROPOLITAN MUSEUM HEISTS (Cases 19–27):

Priceless antiquities, Renaissance art vaults, master forgeries, and lethal artifacts.

• THE COASTAL & LIGHTHOUSE CONSPIRACIES (Cases 28–35):

Isolated islands, foggy cliffs, storm wreckage, and maritime sabotage.

DIFFICULTY CURVE & SCORING

PROGRESSION TIERS:

• TIER I: PROBATIONARY INVESTIGATOR (Cases 01–12)

Clear clues, direct cipher shifts, and standard word placements.

• TIER II: SENIOR DETECTIVE INSPECTOR (Cases 13–24)

Complex multi-clause witness clues and tighter forensic grids.

• TIER III: CHIEF SUPERINTENDENT (Cases 25–35)

Intricate chain-deductions where every clue relies on previous puzzle steps.

DETECTIVE EVALUATION:

At the end of Volume 1, tally your completed warrants on the Master Scorecard to determine your official investigator ranking!

DOSSIER LOG (Cases 01–18)

Case #01: The Mystery of The Wine Cell Pages 9–12
